

Community Service Volunteer Opportunity – House Building

SAKLC's Community Services Ministry and the SAKLC Foundation have joined together as SAKLC's sponsoring partners with Manatee County Habitat for Humanity's current InterFaith Build. The InterFaith Build is a partnership of 15 plus faith communities coming together to provide financial support and volunteer "sweat equity" support in the construction of a house that will become an opportunity for an economically challenged family to become affordable housing homeowners.

Yvette, a single mom, is the sole caregiver for her son, Jose, who uses a wheelchair to get around. The InterFaith Build house is specially designed to enhance Jose's independence in the home and ease the burden on Yvette in caring for his needs. Help us make Yvette and Jose's dream of a safe, accessible and affordable home a reality.

SAKLC provided a team of construction volunteers on Saturday, November 5, 2022. Our second Team is now forming for a **team of construction volunteers on Thursday, February 23, 2023.** Our volunteer team members can be of any skill level and physical strength/endurance level – there is helpful work for anyone who wants to come be a part of our team for the morning. Work begins at 7:30 a.m. and wraps up at 11:30 a.m., with a break for snacks and hydration in the middle of the morning. The work location is in Palmetto, just off highway 301: 10th Street West and 3rd Avenue West.

The SAKLC Community Service Ministry and the SAKLC Foundation have made grants totaling \$16,000 to enable the purchase of building supplies for the house. Now we need to make a "sweat equity" investment.

To sign up as a volunteer, click the following link:
